

HI-MACS®: simply
splendid everywhere

BECAUSE
QUALITY
WINS

HI-MACS®
Natural Acrylic Stone™

Outstanding features of a great material.

Simple processing

HI-MACS® can be worked as wood. With carpenters' tools, this solid surface material can be sawn, sanded or drilled.

Seamless perfection

HI-MACS® allows for visually seamless fabrication. Smooth integration creates large hygienic, easy-to-clean installations areas without visible joints or edges as well as the flush mounting of bowls.

Three-dimensional design

HI-MACS® boasts a simple heating process and three dimensional thermoforming capabilities. Thanks to this forming flexibility spectacular ideas can quickly take on a concrete shape.

Dramatic translucency

Certain colours and thicknesses of HI-MACS® exhibit a special translucency when exposed to light.

Huge colour spectrum

HI-MACS® offers an enormous range of colours. No matter what colour you choose, HI-MACS® remains 100% homogeneous.

Sheet material, sinks, bowls and a comprehensive accessories range.

HI-MACS® sheet material comes in 3 mm, 6 mm, 9 mm, 12 mm and 19 mm thicknesses and in six standard formats. The 12 mm thick sheet material is also available in the larger 1350 x 3680 mm format.

The comprehensive HI-MACS® bowls, sinks and top-mounted basins range provides products for bathrooms, kitchens, hospitals and many other settings. All sinks and bowls can be incorporated or integrated flush within the sheets.

The standard HI-MACS® formats are 930 x 3000 mm, 760 x 2490 mm, 910 x 2490 mm, 760 x 3680 mm, 910 x 3680 mm and 1350 x 3680 mm.

Project: Le Baou, France – Design: Charlotte Raynaud – Fabrication: Felix Hegenbart SARL
